

Minutes from the
WWA/WarnGen templates matching the Directives Meeting

Wednesday, December 4, 2002
Beginning at 2:00 PM EDT

This meeting was set up to discuss how we can use experienced field employees to update the WWA, WarnGen and the WWA NWR (used by both applications) templates to meet format of products as stated in the NWS Directive System. For the WWA NWR, the format will not need to be checked, but the key thing is to make sure one exists. The respective Service Branches along with the MDL's WWA Development Group will double check the completed templates. The deadline approved for acceptance (completed and double checked) of the templates was set for **March 1, 2003** to meet the Operational Build 2 deadline for code check in.

Individuals assigned template work:

John Griffith (WFO CYS)

Non-Precipitation Weather (NPW) Advisories and Statements

Mike Cempa (WFO BGM)

Winter Weather (WSW) Advisories and Statements

Steve Hentz (WFO MKX)

WWA templates for a lot of the lake related products including;

Lakeshore Flood Watch (LSH)

Lakeshore Flood Warning (LSH)

Lakeshore Flood Statement (LSH)

Special Marine Warning (SMW)

Marine Weather Statement (MWS)

Bryon Miller (WFO OAX)

Non Precipitation Weather (NPW) Watches and Warnings

Evan Bookbinder (WFO SGF)

Severe Weather and Short Fuse Hydrology Products

Chad Swain (WFO IND)

Winter Weather (WSW) Watches and Warnings

Phil Kurimski (WFO GRB)

WarnGen templates for a lot of the lake related products including;

Lakeshore Flood Watch (LSH)

Lakeshore Flood Warning (LSH)

Lakeshore Flood Statement (LSH)

Special Marine Warning (SMW)

Marine Weather Statement (MWS)

Mickey McGuire (WFO GLD)

Tropical Weather and Coastal and Offshore Marine Templates for WarnGen and WWA

Craig Schmidt (WRH)

Craig will find someone in his region to work on the Fire Weather templates

Other Attendees:

Regional Representatives

Eric Howieson (SRH)

Joe Palko (WFO PBZ)

Jeff Sites (WFO ILN)

Aimee Devaris (ARH)

OS

Ashley Kells

Sal Romano

Mark Tew

MDL

Mark McInerney

FSL

Jim Ramer

Carl Bullock

Actions:

1. Ashley Kells (OS) will provide the link to the Directives Web page (see below):

<http://www.nws.noaa.gov/directives/>

Status: Complete

2. Ashley Kells (OS) will check into need for NOAA's National Weather Service being included the product.

Status: Under Investigation

3. Sal Romano (OS) will check into hosting the templates on the directory on NOAA1 with NCF. The purpose is that the templates could be uploaded inside the AWIPS firewall on to NOAA1 for easy access by other members of the group and WWA Development Group.

Status: Under Investigation

4. Sal Romano (OS) will work with the Regions to find someone to complete the templates for the Miscellaneous Products.
